

Public Hearing Cancellation Notice
Shelby County Planning Commission
March 16, 2020

The Master Plan Amendments on the Shelby County Planning Commission's March 16, 2020 agenda require a Public Hearing with public testimony and interaction of an unlimited audience of those interested in the cases. Shelby County is cancelling tonight's meeting of the Shelby County Planning Commission based on CDC COVID-19 guidance issued on March 15, 2020 suggesting entities not hold meetings with an attendance of more than 50 people. Due to request for the interested residents of Shelby County to participate in the Public Hearing process and the expectation the interested parties would exceed the estimate of 50 people, the Shelby County Planning Commission meeting for March 16, 2020 is cancelled. This meeting and public hearing will be rescheduled with proper required notice at a currently undetermined date in the near future.
